IT LOOKS BETTER IN 3D: The Reality-First Approach to Childhood Screen Use

by Catherine L'Ecuyer

Discover the most common misconceptions about technology use in education ("technomyths"), notably in regard to media multitasking, "digital natives," the neutrality of technology, and the

digital divide. This book also covers the confusion between sustained attention and fascination, the economic interests at play, some consequences of sustained screen use for children and teenagers, as well as recommendations from the principal pediatric associations.

The Wonder Approach: Rescuing Children's Innate Desire to Learn

by Catherine L'Ecuyer

The author, an award winning doctorate in education and psychology, shared in the Swiss journal "Frontiers in Human Neuroscience" her article "The Wonder Approach to Learning", which converted her thesis into a new hypothesis/theory of learning. This book, written in 2017, expands the article for parents, that "learning is a wondrous journey guided by a deep reflection on what the natural laws of childhood require: respect for children's innocence, their pace and rhythms, their sense of mystery, and their thirst for beauty."
