

## **Intro to Political Philosophy**

Extra Evaluation Course

### **Description**

This course helps students discover the world beyond political headlines and democratic institutions—the world that forged the path for the systems of government that dominate our international arena today. Students explore the primary thinkers in political philosophy, from Plato and Aristotle to Alexis De Tocqueville and John Locke. By digging into classic texts, they consider the most fundamental questions about the very ideas that underpin the political sphere: What is justice? Is democracy the best form of government? What is just war? What makes an ideal regime? This course enables students to hone their critical thoughts, develop an arsenal of ideas for political critique, and come to understand politics as they have never understood it before.

**Cost: \$270**

*Instructions for essays:* Essay topics can be chosen from a list of pre-determined questions and should respond substantively to the question posed. They should reflect the student's own thought and not just repeat what is found in the readings. The essay should be no less than 1000 words. The student will be graded on the quality of their thought as well as the clarity of their presentation.

*Instructions for oral exams:* Oral exams will test both the student's familiarity with the broader course material as well as their critical reasoning ability. In these closed-book exams, the tutor will engage the student with a number of questions, to which the student must thoughtfully respond. Oral exams are 20-30 minutes long and will take place in the classroom at a time determined by the student and his/her tutor.
