POSSIBLE PLANS AFTER COMPLETING HIGH SCHOOL AT HOME:

COMMENTS: Many learning options are available when a student has clear plans for the time after high school. A student who is unsure of what to pursue after high school may wish to be "ready for anything" by earning Alberta credits or an Alberta Diploma, but fulfilling provincial requirements reduces program flexibility. Meanwhile, greater program flexibility, used well, typically results in a superior learning experience. **Knowing I may change my course of action any time during my high school years, I choose the following:**

- OPTION 1:** I do not intend to pursue any course marks or credits. I will continue pursuing a rich home schooling experience through the high school years, and wish to achieve a Parent Authorized Diploma and transcript.
- OPTION 2:** I intend to pursue only select course marks and/or credits. I will continue to pursue a rich home schooling experience through the high school years and prepare to effectively challenge the courses I need and wish to achieve a Parent Authorized Diploma and transcript, as well as an Alberta transcript.
- OPTION 3:** I intend to pursue course marks in Grade 12 core courses and only credits for all other courses in order to earn an Alberta High School Diploma. I will challenge only the courses for which I cannot receive waived credits. I wish to achieve a Parent Authorized Diploma and transcript, as well as an Alberta Diploma and transcript.
- OPTION 4:** I intend to pursue course marks in 5 courses, including core courses in Grades 10, 11, and 12, and only credits for all other courses in order to earn Alberta High School Diploma and to qualify for certain scholarships. I will challenge all courses for which I need marks and all courses for which you cannot receive waived credits. I wish to achieve a Parent Authorized Diploma and transcript, as well as an Alberta High School Diploma and transcript.
